Leverage on the Power of Oneness

A tiny drop in the ocean can create a small ripple that builds a current too strong to overcome. Water is a powerful metaphor that reminds us that we may be small alone, but together we can be great.

In today's competitive world, you cannot work alone. Co-creating, sharing and materialising is the way to go. An African proverb says that *"if you want to go fast, go alone; if you want to go far, go together."* A team with momentum is a force to be reckoned with.

Discover how to build a strong team culture that is the key to sustainable business success. Learn from a highly qualified facilitator with insight and passion!

Get ready to be engaged as you master the core skills of building commitment and support within your team. Have fun conducting team planning activities that reflect your company's values.

Learn to balance the uniqueness of individuals with the effective collaboration of a team. This course will make a difference in the way you see and develop your team.

Learning Outcomes

At the end of the course, you will be able to:

- ▶ Prioritise tasks and manage time effectively.
